SUNIL A M

Chikkamagaluru, Karnataka

+91 9110855363 sunilswathi84@gmail.com GitHub LinkedIn Portfolio

Professional Summary

Aspiring Full-Stack Developer with hands-on experience in Python, React, JavaScript, Node.js and MongoDB, passionate about building responsive and scalable web applications. Strong foundation in frontend and backend development, RESTful APIs, and problem solving, with a commitment to continuous learning.

Skills

- **Frontend**: HTML, CSS, JavaScript, React
- **Backend**: Node.js, Express.js, Django, Flask, Spring Boot, RESTful APIs
- **Database**: MongoDB, MySQL
- **Tools**: Git, GitHub, VS Code, Postman, Firebase, Vercel, Netlify, Render, Railway

Experience

AI & Machine Learning Intern – Spherenex | Feb 2026 – May 2026 (Present)

- Building and training machine learning models using Python for real-world datasets.
- Performing data preprocessing, feature engineering, and model evaluation.
- Developing and deploying multiple ML projects.

Education

Bahubali College of Engineering **Aug 2022 – Jun 2026 (Expected)**

B.E. in Computer Science, CGPA: 8.2 *Shravanabelagola, Karnataka*

Govt PU College, Chikkamagaluru **May 2020 – Jul 2022**

Pre-University, Percentage: 64.5% *Chikkamagaluru, Karnataka*

Projects

Blockchain & AI Powered Healthcare Management System *github*

- Technologies: HTML, CSS, Blockchain, Machine Learning, Django, MongoDB, REST APIs
- Developed a secure healthcare platform using blockchain to ensure tamper-proof storage and integrity of medical records.
- Integrated machine learning models to analyze patient data and generate predictive health insights for early disease detection.

E-Commerce Web Application – ShopKart *github*

- Technologies: JavaScript, Spring Boot, MySQL, REST APIs
- Built a scalable full-stack e-commerce platform for efficient product management, user authentication, and order processing.
- Designed and implemented RESTful APIs enabling secure CRUD operations and seamless frontend-backend communication.

Online Job Portal *github*

- Technologies: JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs
- Engineered a full-stack job portal enabling job posting, searching, and application tracking for recruiters and candidates.
- Implemented secure REST APIs with JWT-based authentication and role-based access control for enhanced data security.

Achievements

- Published a research paper titled "Blockchain and AI-Powered Healthcare Management System" in *International Journal of Innovative Research in Technology (IJIRT)*, ISSN 2349-6002, Vol.12, Issue 8, Jan 2026.
- Completed "Introduction to MERN Stack" certification from Simplilearn SkillUP (Certificate Code: 9924435, Mar 2026).
- Completed "Website Development Tutorial" certification from Infosys Springboard (Feb 2026).
- Built and deployed multiple full-stack applications integrating frontend, backend, and database systems.
